Legend

Safety Team Injury/Illness Flow Chart

A **HOLD** is called due to suspected injury or illness

The Safety Team on duty proceeds directly to the suspected injury or illness after ensuring it is safe to approach

Two members (min) of the safety team will care for the injured party(s) and the others will secure the medical supplies and keep players back

Call 911

The safety team is unable to treat the injury or illness and the party(s) reject 911 service. In this case refer to AB to determine if player should be removed from the field

The safety team treats the minor injury or illness, within the scope of their own training and only their own training
